PROFILE

I am a Final-year Computer Science student at Bahir Dar University with a unique dual-background in Accounting and Finance. I specialize in building full-stack applications using the MERN stack and Laravel, with a particular focus on creating clean, efficient backend systems. From developing automated grading tools like Askuala Lens to building management systems during my internship at Ewenet Communication, I enjoy turning complex problems into scalable digital solutions.

EDUCATION

Bahir Dar Institute of Technology | Bahir Dar University
Bachelor of Science in Computer Science

Expected – June 2026

Ambassador College | Bahir Dar | Ethiopia
Bachelor of Arts in Accounting and Finance

Expected – June 2026

WORK EXPERIENCE

July 1, 2025 – August 31, 2025

Ewenet Communication PLC – Web Development Intern (Onsite)

- Developed a Shopping Center Management System with a team.
- Contributed to a dark-style interface designed for modern aesthetics and high usability.
- Helped plan, design, and develop user-facing features using full-stack web technologies.
- Worked with teammates to gather requirements, build solutions, and handle technical tasks.
- Grew skills in real-world development, teamwork, and meeting professional client needs.

PROJECTS

Internship Management System (Final Year Project – In Progress)

- Designing a platform to automate the tracking and coordination of student internships for universities

Askuala Lens (BiT AI Hackathon 2026)

- Developed a Flutter mobile app enabling teachers to scan exams/assignments for automatic mark entry.
- Implemented student note translation features and a grade-tracking dashboard for families.

Kasopia Tour and Travel Agency

- Engineered a full-stack web platform for a professional client to manage bookings and showcase travel services.

SKILL

- Technical skill : React js, Node js/Express, Mongo DB, MYSQL, PHP, Flutter, Git and Github(version control)
- Soft skill : Collaboration, Adaptability, Communication, Critical thinking
- Language : English (Fluent), Amharic (Native)
